

### DOWNSPOUT HANGER KIT

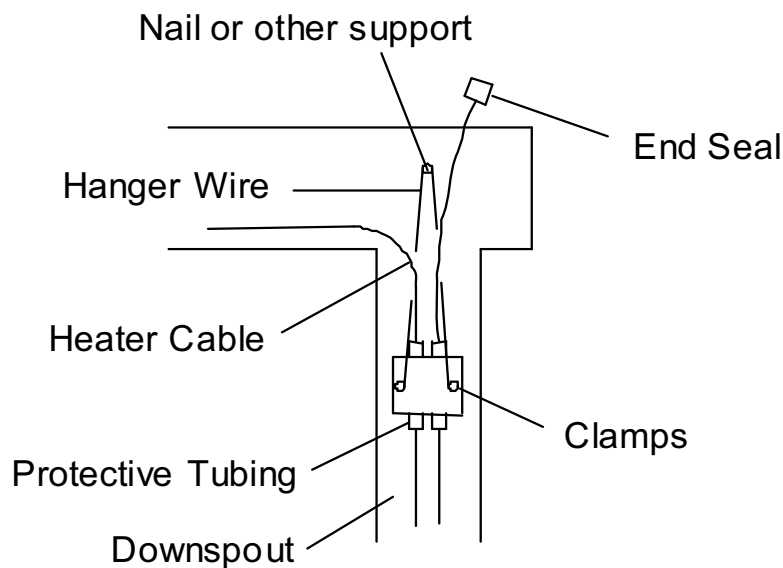

### INSTALLATION INSTRUCTIONS

#### DESCRIPTION

The Downspout Hanger Kit is for use with Roof & Gutter approved heater cables. Each kit contains materials for one complete downspout hanger kit.

#### KIT CONTENTS

1 Hanger Wire  
1 Protective Tube  
2 Screws  
2 Nuts  
2 Hanger Clamps

1. Determine the location of the downspout hanger to maximize the support function and minimize any stress points at the gutter edges.
2. Wrap protective tubing around the heater cable.
3. Place the 2 hanger clamps over the protective tubing.
4. Insert a screw through the hanger wire and then through the hanger clamps. Repeat for the other side.
5. Tighten the nuts and the screws to insure a snug fit.
6. Install hanger wire with a nail, screw, or other support.
